DETAILED ACTION

Claim Objections

1. Claims 3, 7, 13 and 14 are objected to because of the following informalities: each of claims 3, 7, 13 and 14 lack a period at the end of the claim. Appropriate correction is required.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 3 and 4 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 3, line 2, "the proportional magnification of the received data" lacks a proper antecedent basis in claim 2 since claim 2 recites "proportionally magnifies the received data ***samples***." In claim 3, line 2, "the received data" should be --the received data samples--.

Allowable Subject Matter

4. Claims 1, 2 and 5-15 are allowed.
5. Claims 3 and 4 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
6. The following is a statement of reasons for the indication of allowable subject matter: Yamamoto et al. (US 6,680,901 B1) teach other OFDM synchronization using quantized data samples. Ha et al. (US 2004/0156,308 A1) corresponds to applicant's related application.
